Customer Focus

TaxiPass Case Study

TaxiPass offers customers a smooth, quick and easy cashless payment option through their partnership with Blue Bamboo.

Tired of carrying cash and fed up with the state of the Taxi payment industry, the team of entrepreneurs at Taxipass work towards modernizing cab payments across the United States.

Taxipass accomplishes these goals with fleets in the United States' top 25 cab markets. [More details...](#)

Data Business System Case Study

The affordable and state-of-the-art solution combining TransAction+, H50 client application with H50 terminals is ideal for growing retailers.

Through partnerships with retail technology leaders—including IBM, Panasonic and Novell--DBS(Data Business Systems) provides software especially centered for retail. For decades, DBS has partnered with market leading software provider POSitouch to create custom point-of-sale solutions especially designed for the restaurant industry and their work is visible in some of the best-known quick-service restaurants.

Having seen increased security performance and lower overhead, the partnership between Blue Bamboo and DBS is solid and appears set to expand in the future. [More details...](#)
